

A further update on the situation in Odsey regarding Zaheers

Please do keep reporting any anti social behaviour to the council and the police where appropriate: “Following our recent discussions regarding the situation at Zaheer’s and the concerns raised by yourself and other members of the public, we agree that the operation of the premises appears to be causing a level of disturbance that is adversely affecting the safety and amenity of the local community.

This impact appears to be both direct—through activities at the premises—and indirect, through the behaviour of patrons attending the site. We fully acknowledge the seriousness of the matter and will be engaging with the operator/owner to identify and implement appropriate measures to address and improve the situation.

As part of this process, a joint visit will be arranged involving Licensing, the Police, and the People and Protection Team.

Depending on the outcome of this visit, I want to reassure you that we will consider all enforcement options available to us to ensure a satisfactory resolution is achieved. I will be liaising with the Licensing Manager over the course of this week to coordinate suitable dates for the inspection.

Kind regards”
