

Hi Graham,

The item is a razier chair <https://youtu.be/3vLWZHHnsEI?si=trYlKvITja-5xgOi>

It would allow me/the group to attend non-injury falls in the community eliminating the need for an ambulance to come out (as most people know this could be multiple hours). I believe it will have a large benefit on Ashwell's population mainly on older generations who are more prone to falls and are unable to get themselves back up.

Funding gap is about £1600 which would account for the chair and ensuring we have funds in case of any unforeseen operational issues.

Thanks,

xxxxxxxxx
