

THE ICKNIELD WAY ASSOCIATION

AGM, with a FREE talk open to members and non-members

The Icknield Way Association will be holding its Annual General Meeting at **2 PM** on **SATURDAY 18th OCTOBER 2025** at **THE WILKINSON HALL, CHURCH SQUARE, TODDINGTON LU5 6BP**

The AGM will begin with a talk by our special guest speaker, Dr. Wendy Morrison, on the topic **The Chilterns Heritage and Archaeology Partnership: What's that CHAP been doing?**

At the end of the very successful, but fixed term, LiDAR and Beacons of the Past Hillfort Project made possible by the National Lottery Heritage Fund, the Chilterns Conservation Board took the decision to more permanently support archaeology in the protected landscape. One of the mechanisms for doing so is the Chilterns Heritage and Archaeology Partnership (CHAP). This talk will outline some of the projects CHAP has carried out and what future work entails, including in the environs of the Icknield Way.

The talk will be open **free of charge to non-members** of the Association and refreshments will be provided.

Space will be limited. It is essential that anyone wishing to attend books their place by contacting Laurence Rix, IWA Secretary, by email at Secretary@IcknieldWayPath.co.uk.

CHAP will be the driving force in the conservation and sustainable management of heritage and archaeological assets in the Chilterns, working in partnership with organisations and local communities throughout the National Landscape and its environs to ensure that the millennia-long story of the region is shared with the millions of people who live in or visit it.

Dr. Wendy Morrison

Wendy Morrison is Heritage and Archaeology Manager for the Chilterns National Landscape (formerly the Chilterns Area of Outstanding National Beauty). She is also Senior Research Associate Tutor for Archaeology at the Oxford University Department for Continuing Education. Wendy's research areas are Prehistoric European Archaeology and Landscape Archaeology and she was previously Project Manager of the Beacons of the Past Lidar and Hillfort Project. She has nearly two decades' excavation experience in Southern Britain, the Channel Islands and India and is a Fellow of the Society of Antiquaries, as well as current President of the Chess Valley Archaeology and Historical Society and of the Maidenhead and Marlow Archaeology and History Society.
