

Playground Improvement

The skate park and the older kids climbing frame in Ashwell's playground could do with being replaced by equipment to better serve a wider age range of children. The quarter pipe might remain as it is, but the grind rail and box could be removed and replaced by a ramp. It has been suggested that the metallic climbing frame near the skate park is not challenging enough for older children and might be replaced by a more challenging piece of equipment.

Improving the play area has been a project that the Parish Council has been thinking about doing for a few years now and would like to gain the opinion of the residents of Ashwell as to what changes you would like to see to the skate park and adjacent climbing frame, so they to suit the needs of the village.

To provide your thoughts please contact Ashwell Parish Council. This can be done by email on deputyclerk@ashwell.gov.uk, phone on 01462 743706, by attending the next Parish Council meeting on the first Wednesday of the month at 7pm in the Parish Rooms to provide your thoughts on this matter. Alternatively, you can pop into the office at 6A Back Street.
